REQUEST BY DECISION UNIT AGENCY: Division of Financial Management Agency No.: 180 FY 2010 Request Page _10__ of _18_ Pages FUNCTION: Financial Management Function No.: 01 ACTIVITY: na Original Submission _X__ or Revision No. _ Activity No.: Decision Unit No: 12.01

- B: Use the financial data matrix above to summarize requested resources by fund source and by expenditure class at the summary object level. Attach as many pages as necessary to repond to the following questions:
- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? The Division of Financial Management is requesting an additional Financial Management Analyst position to help absorb increased workload. The Division's responsibilities and workload has grown considerably over several years due to the needs associated with additional state employees and programs being managed, although no new analyst positions have been added. Currently, there are seven analyst positions in the Division funded 100% from General Funds for a total of \$360,000.
- 2. What resources are necessary to implement this request?
- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire and terms of service.
- b. Note any existing agency human resources that will be redirected to this new effort and how existing operations will be impacted.
- c. List any additional operating funds and capital items needed.

General Funds will be needed to fund this position. Over \$45,000 in overtime costs have been paid out to analysts because of increased workload requirements. The cost avoidance generated by reducing the overtime costs paid out to analysts the past three years will help offset the salary costs associated with the new position. If authorized, this is a full-time position of Financial Management Analyst; Pay Grade 39; Hire date July 1, 2009. Annual pay for the position plus 5% is \$36,200 and \$17,400 for the eligible benefits. The operating costs are for supplies, training and travel for a total of \$7,500 and capital outlay costs for necessary computer equipment, office equipment and furniture for a total of \$4,000.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions: new customer base, fee structure changes, ongoing anticipated grants, etc.

This position will be funded by ongoing General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted? The Governor's Office, the Division of Financial Management and state agencies will be served by this request. An additional analyst position will enable the Division to work more efficiently and better serve the Governor's office and state agencies by reducing current analyst's excessive workload. Analysts are currently being forced to work excessive hours of overtime in order to fulfill the Divisions' needs. Indicators suggest that this current strained workload is more likely to increase than to stabilize.

B: Use the financial data matrix above to summarize requested resources by fund source and by expenditure class including subobject code. Attach as many pages as necessary to repond to the following questions:

- 1. What is being requested and why? What is the agency current staffing level for this activity and how much funding by source is in the base? The Division of Financial Management is requesting funding for new office space. The Division's current office space has been cramped for several years. As the Division has continued to expand in personnel, workload, and equipment, the current office space is no longer adequate to meet the Division's needs. General Funds totaling \$66,000 are currently in the base for 6,350 square feet of office space.
- 2. What resources are necessary to implement this request?
- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire and terms of service.
- b. Note any existing agency human resources that will be redirected to this new effort and how existing operations will be impacted.
- c. List any additional operating funds and capital items needed.

General Funds will be needed to fund this move. If authorized, moving costs figured at \$250/person would total an estimate of \$6,300. An additional \$1,500 for one-time phone connection costs are also needed. Adding 635 square-feet, which represents a 10% increase in space, will cost an additional \$6,600 per year based on the current rate of \$10.40/sq.-ft. charged by the Dept. of Administration for state office space. The larger accomodations will enable the Division to continue to fulfill the duties, responsibilities and authority as designated in Idaho Code 67-1910 through 67-1918 to manage and advise on State agency budget issues.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions: new customer base, fee structure changes, ongoing anticipated

This move will be funded by General Funds, as noted above.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The Governor's Office, the Division of Financial Management and state agencies will be served by this request. New office space would create a better work environment enabling the Division to work more efficiently and better serve the Governor's office and state agencies.

Typically, this will be the figure shown in the lease or the MOU. 110,000 110,000 Square Feet: 66,863 66,863 110,000 Include annual rent, plus all other facility-related costs, such as utilities, janitorial service, property taxes, or building maintenance, which are not included in the rent payment made to your Landlord. If improvements will need to be made to the facility and will be paid by the agency, this should be included as well. If the lease will be expiring and the future rent is not specified in lease agreement, increase rent by 3% per year. Increase all other facility-related costs by 3% per year as well. Use "Calculation Sheet" on next worksheet if necessary. Do not include telephone costs or rent discounts. If you anticipate moving to a new facility, you need to take into account any increase in square feet leased and estimate a new market rate for the new facility. Do NOT use your old rate per square foot - it may not be a realistic figure. Total Facility Cost Per Yr: 722,120 722.120 1.250.000 1.250.000 1.250.000 1.250.000 Upon completion, please return all sheets electronically to Facilityplan@adm.idaho.gov hardcopy of each sheet with your budget request.
